Professional Summary

Software Development Engineer candidate (B.Tech CSE, 2026) with two internships building full-stack web applications using Python, Django, Flask, React, and PostgreSQL. Strong in REST API design, relational database optimization, and Agile delivery, with a focus on clean, maintainable, scalable code.

Technical Skills

Languages: Python, Java, C, JavaScript, SQL

Backend & Frameworks: Django, Django REST Framework, Flask, React, REST APIs, MVC

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, GitHub, Docker (basic), Linux (CLI)

Core Concepts: Data Structures & Algorithms, OOP, Agile/Scrum, NLP (basic)

Experience

Full-Stack Developer Intern **Feb 2026 – Mar 2026**
Vijay Software Solutions

- Built a production-grade e-commerce platform using Django REST Framework, React, and PostgreSQL, covering user authentication, product management, cart, and order tracking.
- Designed and implemented RESTful APIs for all core operations, enabling clean separation between the React frontend and Django backend.
- Optimized PostgreSQL queries across 10+ relational tables using Django ORM to improve data-access efficiency.

Python Web Developer Intern & Scrum Master **Feb 2025 – Apr 2025**
Infosys Springboard

- Developed a Flask-based e-commerce platform with a storefront, admin panel, inventory management, and sales analytics, backed by SQLite.
- Led the team as Scrum Master: facilitated sprint planning, daily standups, retrospectives, and code reviews to deliver on schedule with consistent code quality.

Projects

Automated Resume Analysis & Skill Matching *GitHub*
Python, Django, NLP, MySQL

- Built a Django web application that parses resumes with NLP, extracts skills, and matches them against job descriptions to generate automated compatibility scores for recruiters.
- Developed a recruiter dashboard with MySQL integration for job postings, applicant tracking, and skill-gap feedback for candidates.

E-Commerce Website *GitHub*
Python, Flask, SQLite, HTML, CSS, JavaScript

- Developed a multi-page e-commerce platform with user authentication, product listing, shopping cart, and order management.
- Implemented a responsive frontend and RESTful backend API; maintained code quality through systematic debugging and iterative code reviews.

Education

Malla Reddy Engineering College (Autonomous), Hyderabad **2022 – 2026**
B.Tech, Computer Science & Engineering *CGPA: 8.76*

Telangana State Residential Junior College **2020 – 2022**
Intermediate (MPC) *964/1000*

Mathrusri High School **2019 – 2020**
SSC *GPA: 10.0*

Certifications

- **Microsoft Certified: Azure AI Fundamentals (AI-900)** – Microsoft, August 2025 *Credential*
- **Python Web Development Internship Certificate** – Infosys Springboard, Feb – Apr 2025 *Certificate*

Leadership & Activities

- **Technical Lead, Adyanth Community (College Tech Club):** Organized workshops and coding sessions for 100+ students.
